

EPA has a [list](#) of fugitives, all of them wanted in connection with environmental crimes.

Defendants charged with environmental crimes or violations of the U.S. Federal Criminal Code sometimes flee the court's jurisdiction and/or the USA rather than face prosecution or to serve a sentence. When these circumstances occur, the defendants become fugitives from justice.

The following wanted posters identify fugitives sought by the EPA's Criminal Investigation Division. Each one provides a brief case summary and instructions on how to report information related to their identity and/or current location. You may also report the information to your local police or if you are outside the United States, to the nearest U.S. Embassy.

Do not attempt to apprehend any of these individuals.

It's a pretty scroungy group — a long way from the romance of [Johnny Depp](#) evading the FBI.
