<u>Transnational Environmental Law (TEL)</u> is a peer-reviewed journal dedicated to the study of environmental law and governance beyond the state. It approaches legal and regulatory developments with an interest in the contribution of non-state actors and an awareness of the multi-level governance context in which contemporary environmental law unfolds in a global context. (Full disclosure: I'm on the editorial board.)

The first issue will include contributions by, among others:

- Edith Brown Weiss (Georgetown University),
- Dan Bodansky (Arizona State University),
