

✖ The latest issue of ELQ — full content available free [here](#) — is centered on two broad themes: 1) learning from other states, countries and international experiences and 2) the failures of administrative law as an environmental management tool.

The issue includes the following articles:

* The Transformation of Modern Administrative Law: Changing Administrations and Environmental Guidance Documents *by Sam Kalen*

*Synthesizing TSCA and REACH: Practical Principles for Chemical Regulation Reform *by John Applegate*

* Environmental Leadership Programs: Toward an Empirical Assessment of Their Performance, *by Jonathan C. Borck, Cary Coglianese, Jennifer Nash*

* Goblets of Fire: Regulation of Global Warming Amid Potential Impediments Under the U.S. Constitution *by Steven Ferrey*

* Greenhouse Gas Emissions Trading In New Zealand: Trailblazing Comprehensive Cap And Trade
by Toni Moya
