EPA has a list of fugitives, all of them wanted in connection with environmental crimes.

> Defendants charged with environmental crimes or violations of the U.S. Federal Criminal Code sometimes flee the court’s jurisdiction and/or the USA rather than face prosecution or to serve a sentence. When these circumstances occur, the defendants become fugitives from justice.
>
> The following wanted posters identify fugitives sought by the EPA’s Criminal Investigation Division. Each one provides a brief case summary and instructions on how to report information related to their identity and/or current location. You may also report the information to your local police or if you are outside the United States, to the nearest U.S. Embassy.
>
> Do not attempt to apprehend any of these individuals.

It’s a pretty scroungy group — a long way from the romance of Johnny Depp evading the FBI.
