

*This is from Grist's mock [facebook page](#) for Steve Chu:*

Steven took the quiz "[Do you know more about energy than Sarah Palin?](#)" and  the result is "[OMG I HOPE SO, MR. ENERGY SECRETARY](#)".

You're the flipping Secretary of Energy. Your vocabulary has moved beyond Sarah's staples of "Drill, Baby, Drill" and "Nu-cu-lar." You understand that geothermal is not something you dress your kid in out of an L.L. Bean catalogue. You may be drinking the clean energy Kool-Aid, but it's all cool because like we said before, you're the effing Energy Secretary.
