I did a survey of all articles with “climate change” in the title in the past couple of years, and then did a rough breakdown of topics. Although the survey was unscientific, the results were intriguing:

Topic	Number of Articles
Adaptation	
Biodiversity and public lands	11
Governance	5
Public health	1
Water	6
Economics	9
Ethics	10
General	41
Mitigation	
Energy	20
Instrument choice and design	19
Federalism	36
Land use	5
Litigation	29
Offsets	1
Politics	15
